

SUPREME™ SYNTHETIC SHP

Offer maximum wear protection, performance and fuel economy for today's severe driving environments.

VIEW OUR FULL RANGE

ALLISON TRUSTS DURADRIVE. SO SHOULD YOU.

We created **DURADRIVE HD SYNTHETIC 668**, an ATF so advanced and protective, Allison chose to make it first fill in every **TES 668®** specified transmission that leaves the factory.

TES 668® is a registered trademark of Allison Transmission, Inc.

OUR NO-NONSENSE LUBRICANTS WARRANTY

"Petro-Canada Lubricants will repair damaged equipment, or replace damaged equipment parts resulting from a failure due to defects of the Petro-Canada Lubricants product, as long as the lubricant is used in accordance with your equipment manufacturer's and our recommendations."

**IT'S MORE THAN JUST A WARRANTY.
IT'S A COMMITMENT.**

LUB4434E (2024.09)

PRESENTING OUR LINE OF INDUSTRY LEADING AUTOMOTIVE LUBRICANTS

Created with some of the world's purest base oils. Engineered to OEM standards, and beyond.
Resisting corrosion, deposits and wear. Protecting engines and drivelines for the long haul. Promoting fuel economy.

PASSENGER CAR MOTOR OILS	POWER TRANSMISSION FLUIDS	TRANSPORTATION AXLE, MTF AND AMT FLUIDS	HEAVY DUTY DIESEL ENGINE OIL
 Petro-Canada Lubricants offers a full line of high quality passenger car motor oils that exceed the latest performance credentials of the major car manufacturers.	 Automatic/continuously variable/dual clutch transmission fluids offer: • Outstanding thermal and oxidative stability • Enhanced wear protection for extended life • Excellent low temperature performance	 Transportation axle, MTF and AMT fluids deliver performance in: manual (both synchromesh and non-synchromesh) transmissions, differentials, power take-off units and final drives in passenger cars, trucks, and off-highway vehicles.	 Petro-Canada Heavy Duty Diesel Engine Oil is built on our world class technology and decades of expertise. DURON™ is the most durable and high performing oil we have ever made.
Available in	Available in	Available in	Available in
SUPREME™ Synthetic Unsurpassed performance and protection even in the most extreme driving conditions. Product meets API SP and ILSAC GF-6 (as applicable), addressing needs of the latest vehicles. Certain synthetic line products are licensed to GM dexos1™ Gen 3 (check label). SAE Grades: 0W-16, 0W-20, 0W-30, 5W-20, 5W-30, 5W-40 and 10W-30 SUPREME™ Synthetic SHP Delivering exceptional performance and protection in severe driving conditions made from ultra-pure synthetic base oils combined with leading additive technology. Product meets ILSAC GF-6 / API SP, addressing needs of the latest vehicles. SAE Grades: 0W-20, 5W-30 SUPREME™ C3-X Synthetic Designed to lubricate high-performance gasoline and light duty diesel engines for today's vehicles. Meets the performance requirements of ACEA C3, API SN, VW 504 00 / 507 00, MB 229.51, Porsche C30 and BMW LL-04 specifications. SAE Grade: 5W-30 SUPREME™ High Mileage Designed with REGEN Technology to clean up sludge in your engine and restore the performance in vehicles with high mileage. Products meet API SP and ILSAC GF-6. SAE Grades: 0W-20, 5W-20, 5W-30, 10W-30 SUPREME™ Synthetic Hybrid Exceptional protection of critical engine parts during frequent stop/start cycles inherent with hybrid engines. Products meet API SP and ILSAC GF-6. SAE Grades: 0W-20, 0W-16 SUPREME™ Trusted performance and protection, to keep engine parts running clean. Products meet API SP and ILSAC GF-6 (as applicable). SAE Grades: 5W-20, 5W-30, 10W-30, 10W-40 and 20W-50	DuraDrive™ MV and LV ATF Available in both high and low viscosities, these multi-vehicle fluids provide the frictional properties, wear protection and viscometrics needed by most major North American, Asian, and European automatic transmissions. DuraDrive™ CVT MV Ideal for a wide range on continuously variable transmissions (CVT). It is specially formulated to provide stable and precise friction balance for belt and chain CVTs while delivering strong anti-shudder durability over a long fluid life. DuraDrive™ DCT MV Delivers optimum clutch frictional response, excellent load carrying capacity and synchromesh performance for protection of the gearbox. It provides excellent gear wear and corrosion protection, extended anti-shudder durability and reliable low temperature fluidity ensuring the transmission is protected over the life of the fluid. DuraDrive™ HD Synthetic 668 DuraDrive HD Synthetic 668 is the licensed and approved factory fill fluid for on-highway and vocational Allison Transmission transmissions that need a TES 668®. DEXRON®-VI DEXRON®-VI is the new standard over former DEXRON®-III fluids. Improved oxidation, thermal and shear stability to provide extra protection under severe service conditions. ATF D3M Provides oxidation and thermal stability to prolong the life of automatic transmissions. Used as transmission fluid and powershift fluid in many older cars and trucks, as well as off-highway vehicles. Meets the former GM DEXRON®-III and MERCON® specifications. ATF+4® ATF+4® is the recommended top-up and refill automatic transmission fluid for Chrysler, Dodge, and Jeep vehicles with automatic transmissions where ATF+4®, and ATF+3® is recommended.	TRAXON™ E Synthetic For "Genuine Roadranger" extended drain and warranty performance requirements set by Eaton Corporation (for transmissions) and Dana CVSD Corporation (for axles). SAE Grades: 75W-90, 80W-140, MTF TRAXON™ Synthetic Provides ultimate all season performance, for excellent lubrication of gear drives found in manual transmissions and rear axles SAE Grade: 75W-85, 75W-90 and CD-50 TRAXON™ Synthetic MTF 75W-80 Suitable for Volvo I-Shift and Mack mDrive synchronized automated manual transmission applications and can be used in a range of existing vehicles using ZF transmissions, including those fitted with ZF-Intarders. TRAXON™ XL Synthetic Blend These multigrade gear fluids provide efficient operating performance, leading to lower fuel consumption. SAE Grades: 75W-90, 80W-140 TRAXON™ Multigrade gear fluids that extend equipment life and reduce downtime and maintenance costs. SAE Grades: 80W-90, 85W-140 DEXRON®/DEXRON® LS Gear Oil Synthetic extreme pressure automotive axle lubricants formulated to provide excellent wear protection to extend equipment life and reduce downtime and maintenance costs. Available in both a limited slip and non-limited slip version. SAE Grade: 75W-90	DURON™ UHP To meet the toughest demands of the API CK-4 service category, the synthetic line of DURON UHP engine oils has been formulated to deliver new performance standards in extreme heavy duty applications, on and off-road. SAE Grades: 10W-40, 5W-30, 0W-30, 0W-40, 5W-40 DURON™ UHP E8-X Ultra High Performance low SAPS Diesel engine oils specifically designed to outperform ACEA E8 requirements and protect engines in severe conditions. With a full suite of OEM approvals. SAE Grades: 10W-40, 5W-30 DURON™ SHP DURON SHP is a line of super high performance synthetic blend heavy duty diesel engine oils made to meet the demands of API CK-4. SAE Grades: 10W-30, 15W-40 DURON™ HP DURON HP High Performance engine oil brings multigrade performance driven by the demands of API CK-4. SAE Grade: 15W-40 DURON™ Advanced Driven by the specific demands of the API FA-4 category - durable low viscosity, high performing synthetic and synthetic blend, heavy-duty diesel engine oils specifically designed to improve fuel economy. SAE Grades: 10W-30, 5W-30 DURON™ GEO LD Specifically formulated for the high combustion temperatures in today's natural gas mobile engines. Also suitable in diesel and gasoline engines. SAE Grades: 15W-40, 10W-30
